

Proudly announces the opening of our new

BIODIESEL ANALYTICAL LAB

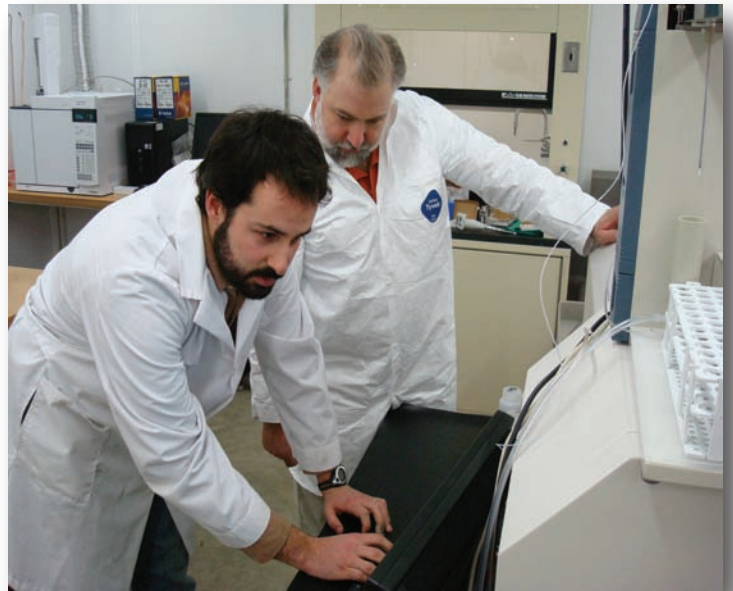

Pacific Biodiesel Technologies, LLC
4725 Turner Road SE
Salem, Oregon 97317 USA

Now the choice is clear.

Put Our Expertise to Work for You!

Our new biodiesel analytical lab builds on the experience, knowledge, and integrity of an industry pioneer. Since 1996 Pacific Biodiesel has been producing and distributing quality biodiesel, installing plants and advancing process technology. Now you can put our expertise to work for your operations. Our lab goes beyond just delivering test results. With our experience in processing, we can help you diagnose issues of concern and modify your production stream as necessary to meet the increasingly stringent ASTM standards.

Competitive prices and highly qualified staff that enhance Pacific Biodiesel's solid reputation are ready to aide in your analytical requirements. Call Quality Manager Lee Litvin for personal assistance now!

SPECIAL INTRODUCTORY OFFER!

Order your next biodiesel ASTM test from the experts who know quality fuel and get an introductory 50% discount on your second ASTM test panel. Call for more details on this offer and other discounts for first-time clients.
